## MANAGEMENT DISCUSSION AND ANALYSIS

### Industry Structure and Development

While FY1999-FY2009 was a decade of growth, the past decade (2010-2019) has been that of consolidation during which the industry succeeded in decoupling revenue and employee growth. If the last decade (2010-2019) was one of unprecedented digital disruption that impacted both, businesses and public at large, the decade of the 2020s is expected to be one of individualism and hyper-personalization. Now, everything is digital; technologies are deeply interwoven into every industry and across entire industry value chains. This trend is expected to continue over the next decade.

In CY 2019, the global market for software and services is estimated to have grown to \$1.5 trillion. IT services is estimated to have grown by 3.5% YoY, characterized by a shift to digital technologies, and adoption of DevOps, and as-a-service models. Business Process Management grew by 4.5% over the prior year driven by a greater focus on robotic process automation as customers automate repetitive tasks and focus on strategic work.

The industry has also been strengthening the foundation of India as an Innovation hub: start-ups in India today are growing at 12-15 per cent YoY. The sector is one of the highest impact creators for the country- economic, innovation, job creation and inclusivity. Currently, it accounts for over 8% share in India-s GDP. Total revenue from the sector went up to USD 191 Billion growing at 7.7% over FY2019, out of which, revenue from the IT services reached the USD 100 Billion mark, growing at 6.7%.

### Business Outlook

Global economic growth is projected to contract sharply from 3.3% in FY 2019 to -3% in FY 2020, much worse than during the 2008-09 financial crisis. Rolling lockdowns and social distancing restrictions on account of the CoVID-19 pandemic are expected to significantly impact economic activity in all major markets and cause demand compression. In the immediate aftermath, enterprises are expected to downscale current investments, defer planned initiatives, cut costs and conserve cash.

However, demand is expected to increase for services around digital channels, collaboration and workplace transformation, online learning and workforce analytics. Companies are also expected to invest more towards building operational resilience, leveraging analytics, intelligent automation, cloud and cyber security.

Baron's aim is to optimally utilize its resources to grab all the possible opportunities for achieving the end results of the organization in the short run and to cater to the current needs of the market, while ensuring long-term sustainability.

### Performance of the Company

During the year 2019-20, Baron reported revenue of Rs. 8.83 lakhs as against Rs. 5.48 lakhs in the year 2018-19. The Net Losses of the Company came down by Rs. 20.56 Lakhs to Rs. 0.78 Lakhs from Rs. 21.34 lakhs in the year 2018-

19. The same has been achieved as a result of the Company's persistent efforts to bag and execute back-to-back contracts on behalf of other service providers.

Though the Company has been unable to carry on its operations seamlessly due to lack of software orders, Baron stays committed to its endeavour in exploring various business avenues to improve its performance and emerge as a profitable organization.

### **Opportunities, Threats, Risks and Concerns**

While the domestic market shows signals of increased IT spend by the government agencies, only large operators of the industry are able to address these big-sized opportunities since they have the capacity build-up with good cash reserves. Even multinational IT players are in the race to take up large deals which require substantial investments. As a result, smaller companies with limited or scarce resources certainly continue to remain handicapped and at a disadvantageous position, thereby facing difficulty in reaching their targets. Baron is one of the preys to such limitation.

Add to this the disruption caused by the CoVID-19 pandemic, the IT industry today faces an unprecedented set of challenges. The market reaction to the pandemic has been followed by rationalization of IT spend as the focus has shifted to prioritizing spending, based on cost constraints and business priorities. This has resulted in an adverse impact on the economic activity across the IT sector and shall continue to do so over the short term.

Fortunately, the Government is acting decisively to protect its businesses and people from the economic disruption caused by the pandemic. Whether through tax cuts, investment incentives or extensions to filing deadlines: tax system has played an important role in helping alleviate the current financial and economic turmoil.

The pandemic is also changing the consumption and delivery model for IT services leading to opportunities for IT service providers. For a significant number of roles in certain industry segments, WFH is and will become the norm going forward. The focus

on cyber security, network connectivity, resilience and related business processes are opportunity areas for IT services. Digitization of channels to market are creating omni-channel opportunities which bring in additional room for both, simplification and automation of the underlying business processes and related supply chains.

### **Internal Controls and their adequacies**

Baron has placed various systems, commensurate with the size and complexity of its operations to have proper control over and accountability of them.

The Board of Directors of the Company have adopted various policies like Related Party Transactions policy, Whistle Blower Policy and such other procedures for ensuring orderly and efficient conduct of its business for safeguarding its assets, prevention and detection of frauds and errors, accuracy and completeness of the accounting records as well as timely preparation of reliable financial information.

Based on the framework of internal financial controls and compliance systems established and maintained by the Company, work performed by the statutory and secretarial auditors, including audit of internal financial controls over financial reporting by the statutory auditors and reviews performed by the management and the Audit

Committee, the Board of Directors is of the opinion that the Company's internal financial controls were adequate and effective during the FY 2019-20.

### Human Resource/ Industrial Relations

Baron believes and recognizes that Human Resource is a critical factor in the sustenance and growth of an organization and aims to have seamless focus on harnessing the potential of its human capacity. The Company currently has 03 full-time employees who are also the Key Managerial Personnel of the Company. As the Company strives to establish its base in terms of operational excellence, it is committed to enhance the performance of its workforce by nurturing their talent and improving their current capability levels.

The Company has maintained cordial industrial relations during the year under review and the Board of Directors places on record its gratitude and appreciation for the sincere and efficient services rendered by all the associates of the Company.

#### Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act, and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

#### *Emphasis of Matter*

We draw attention to Note 18 of the financial statements, which describes the extent to which the COVID-19 pandemic will impact the Company's results which depend on future developments that are highly uncertain. Our opinion is not modified in respect of this matter.

**Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

“We have determined that there are no key audit matters to communicate in our report.”

**Other Information**

The Company’s Board of Directors are responsible for the other information. The other information comprises the information included in the annual report, for example, Management Discussion and Analysis, Board’s Report including Annexures to Board’s Report, Business Responsibility Report, Corporate Governance and Shareholder’s Information, but does not include the financial statements and our auditor’s report thereon. The other information as stated above is expected to be made available to us after the date of this auditor’s report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the other information as stated above, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with Governance.

**Management’s Responsibility for the Financial Statements**

The Company’s Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibility for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statement

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

***Meaning of Internal Financial Controls over Financial Reporting***

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

***Inherent Limitations of Internal Financial Controls over Financial Reporting***

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

***Opinion***

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31<sup>st</sup> March, 2020 based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India

The amendments require an entity to recognise the income tax consequences of dividends as defined in Ind AS 109 when it recognises a liability to pay a dividend. The income tax consequences of dividends are linked more directly to past transactions or events that generated

distributable profits than to distributions to owners. The amendment is effective from April 1, 2019 the Company has evaluated the effect of this amendment on the financial statements and concluded that this amendment is currently not applicable.

**1.3 Basis of Measurement**

These financial statements have been prepared on the historical cost convention and on an accrual basis, except for the following material items in the balance sheet:

- Long-term borrowings are measured at amortized cost using the effective interest rate method.
- All assets and liabilities are classified into current and non-current based on the operating cycle of less than twelve months or based on the criteria of realisation/settlement within twelve months period from the balance sheet date.

**1.4 Use of estimates and judgements**

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. These estimates and associated assumptions are based on historical experiences and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. In particular, the areas involving critical estimates or Judgments are:

**a. Depreciation and amortization:** Depreciation and amortization is based on management estimates of the future useful lives of certain class of property, plant and equipment and intangible assets.

**b. Provision and contingencies:** Provisions and contingencies are based on the Management's best estimate of the liabilities based on the facts known at the balance sheet date.

**c. Fair valuation:** Fair value is the market-based measurement of observable market transaction or available market information. All financial instruments are measured at fair value as at the balance sheet date, as provided in Ind AS 109 and 113. Being a critical estimate, judgment is exercised to determine the carrying values. The fair value of financial instruments that are unlisted and not traded in an active market is determined at fair values assessed based on recent transactions entered into with third parties, based on valuation done by external appraisers etc.,

### 1.5 Functional and presentation currency

These financial statements are presented in Indian rupees, which is also the functional currency of the Company. All financial information presented in Indian rupees has been rounded to the nearest Lakhs.

### 1.6 Current and noncurrent classification

All the assets and liabilities have been classified as current or noncurrent as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013 and Ind AS 1, Presentation of financial statements.

*Assets:* An asset is classified as current when it satisfies any of the following criteria:

- It is expected to be realized in, or is intended for sale or consumption in, the Company's normal operating cycle;
- It is held primarily for the purpose of being traded;
- It is expected to be realized within twelve months after the reporting date; or
- It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

*Liabilities:* A liability is classified as current when it satisfies any of the following criteria:

- It is expected to be settled in the Company's normal operating cycle;
- It is held primarily for the purpose of being traded;
- It is due to be settled within twelve months after the reporting date; or
- The Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current assets/ liabilities include the current portion of noncurrent assets/ liabilities respectively. All other assets/ liabilities are classified as noncurrent. Deferred tax assets and liabilities are always disclosed as non-current.

## 1.7 Foreign Currency Transactions

Transactions in foreign currencies are translated to the respective functional currencies of entities within the Company at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated into the functional currency at the exchange rate at that date. Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous financial statements are recognized in the statement of profit and loss in the period in which they arise.

Non-monetary assets and liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction, if any.

## 1.8 Property, plant and equipment

### Recognition and measurement

Property, Plant and Equipment are stated at cost of acquisition or construction less accumulated depreciation and impairment loss, if any. Cost includes expenditures that are directly attributable to the acquisition of the asset i.e., freight, duties and taxes applicable and other expenses related to acquisition

and installation. The cost of self-constructed assets includes the cost of materials and other costs directly attributable to bringing the asset to a working condition for its intended use. Borrowing costs that are directly attributable to the construction or production of a qualifying asset are capitalized as part of the cost of that asset.

### Directly attributable costs include:

- a. Cost of Employee Benefits arising directly from Construction or acquisition of PPE.
- b. Cost of Site Preparation.
- c. Initial Delivery & Handling costs.
- d. Professional Fees and
- e. Costs of testing whether the asset is functioning properly, after deducting the net proceeds from selling any items produced while bringing the asset to that location and condition (such as samples produced when testing equipment).

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Gains and losses upon disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and are recognized net within in the statement of profit and loss.

The cost of replacing part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The costs of repairs and maintenance are recognized in the statement of profit and loss as incurred.

Items of property, plant and equipment acquired through exchange of non-monetary assets are measured at fair value, unless the exchange transaction lacks commercial substance or the fair value of either the asset received or asset given up is not reliably measurable, in which case the asset exchanged is recorded at the carrying amount of the asset given up.

### Depreciation and Amortization

Depreciation is recognized in the statement of profit and loss on a straight line basis over the estimated useful lives of property, plant and equipment based on Schedule II to the Companies Act, 2013 ("Schedule"), which prescribes the useful lives for various classes of tangible assets. For assets acquired or disposed of during the year, depreciation is provided on pro - rata basis. Land is not depreciated.

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted prospectively, if appropriate.

The estimated useful lives are as follows:

Type of Asset	Estimated useful life in years
Buildings	
i) Main Plant Building	30
ii) Other Building	60
Plant & Machinery	25
Lab Equipment	7.5
Material Handling	7.5
Fire fighting	7.5
Vehicles	8
Computers	3
Office Equipment	5
Furniture & Fixtures	10

Advances paid towards the acquisition of property, plant and equipment outstanding at each reporting date is disclosed as capital advances under other noncurrent assets. The cost of property, plant and equipment not ready to use before such date are disclosed under capital work-in-progress. Assets not ready for use are not depreciated.

The Company assesses at each balance sheet date, whether there is objective evidence that an asset or a group of assets is impaired. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Recoverable amount is higher of the value in use or fair value less cost to sell.

Expenditure incurred towards development eligible for capitalization are carried as intangible assets underdevelopment where such assets are not yet ready for their intended use.

## 1.9 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

### A. Financial Assets

#### 1) Initial Recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

#### 2) Subsequent Measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

##### a) Financial Assets at Amortised Cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business model with an objective to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Interest income from these financial assets is included in finance income using the effective interest rate ("EIR") method. Impairment gains or losses arising on these assets are recognised in the Statement of Profit and Loss.

##### b) Financial Assets Measured at Fair Value

Financial assets are measured at fair value through OCI if these financial assets are held within a business model with an objective to hold these assets in order to collect contractual cash flows or to sell these financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in the Statement of Profit and Loss.

**c) Impairment of Financial Assets**

In accordance with Ind AS 109, expected credit loss (ECL) model for measurement and recognition of impairment loss on the trade receivables or any contractual right to receive cash or another financial asset

that result from transactions that are within the scope of Ind AS 18. As Company trade receivables are realised within normal credit period adopted by the company, hence the financial assets are not impaired.

**d) De-recognition of Financial Assets**

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

**B. Financial Liabilities****1) Initial Recognition and measurement**

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value i.e., loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts.\

**2) Subsequent Measurement**

The measurement of financial liabilities depends on their classification, as described below:

**Loans and borrowings**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in the statement of profit and loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

**Fair value measurement**

The Company classifies the fair value of its financial instruments in the following hierarchy, based on the inputs used in their valuation:

**i) Level 1:** The fair value of financial instruments quoted in active markets is based on their quoted closing price at the balance sheet date.

**ii) Level 2:** The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques using observable market data. Such valuation techniques include discounted cash flows, standard valuation models based on market parameters for interest rates, yield curves or foreign exchange rates, dealer quotes for similar instruments and use of comparable arm's length transactions.

**iii) Level 3:** The fair value of financial instruments that are measured on the basis of entity specific valuations using inputs that are not based on observable market data (unobservable inputs).

**Derivative financial instruments and hedging activities:**

A derivative is a financial instrument which changes value in response to changes in an underlying asset and is settled at future date. Derivatives are recognised at fair value at the end of reporting period and are subsequently re-measured at their fair value at each reporting period. The method of recognising the resulting gain or loss depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged. The Company designates certain derivatives as either:

- a. hedges of the fair value of recognised assets or liabilities (fair value hedge); or
- b. hedges of a particular risk associated with a firm commitment or a highly probable forecasted transaction (cash flow hedge);

The Company documents at the inception of the transaction the relationship between hedging instruments and hedged items, as well as its risk management objectives and strategy for undertaking various hedging

transactions. The Company also documents its assessment, both at hedge inception and on an on-going basis, of whether the derivatives that are used in hedging transactions are effective in offsetting changes in cash flows of hedged items.

Movements in the hedging reserve are accounted in other comprehensive income and are shown within the statement of changes in equity. The full fair value of a hedging derivative is classified as a non-current asset or liability when the remaining maturity of hedged item is more than 12 months and as a current asset or liability when the remaining maturity of the hedged item is less than 12 months. Trading derivatives are classified as a current asset or liability.

**(a) Fair value hedge**

Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recorded in the Statement of Profit and Loss, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk.

**(b) Cash flow hedge**

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in other comprehensive income. The ineffective portion of changes in the fair value of the derivative is recognised in the statement of profit and loss. Gains or losses accumulated in equity are reclassified to the statement of profit and loss in the periods when the hedged item affects the statement of profit and loss.

When a hedging instrument expires or swapped or unwound, or when a hedge no longer meets the criteria for hedge accounting, any accumulated gain or loss existing in statement of changes in equity is recognised in the Statement of Profit and Loss.

When a forecasted transaction is no longer expected to occur, the cumulative gains/losses that were reported in equity are immediately transferred to the statement of profit and loss.

**Fair value measurement**

Fair value of financial assets and liabilities is normally determined by references to the transaction price or market price. If the fair value is not reliably determinable, the Company determines the fair value using valuation techniques that are appropriate in the circumstances and for which sufficient data are available, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

**3) De-recognition of Financial Liabilities**

Financial liabilities are de-recognised when the obligation specified in the contract is discharged, cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as de-recognition of the original liability and recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss.

**1.10 Impairment of non-financial assets**

Intangible assets and property, plant and equipment, Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value

less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs. If such assets are considered to be impaired, the impairment to be recognized in the statement of profit and loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

### **1.11 Cash and Cash Equivalents**

Cash and bank balances comprise of cash balance in hand, in current accounts with banks.

### **1.12 Provisions, Contingent Liabilities and Contingent Assets**

#### **Provisions**

A provision is recognised when the Company has a present obligation (legal or constructive) as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, in respect of which a reliable estimate can be made of the amount of obligation. Provisions (excluding gratuity and compensated absences) are determined based on management's estimate required to settle the obligation at the Balance Sheet date. In case the time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability. When

discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. These are reviewed at each Balance Sheet date and adjusted to reflect the current management estimates.

#### **Contingent liabilities**

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

#### **Contingent assets**

Contingent assets are not recognized in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognized in the period in which the change occurs.

### 1.13 Revenue recognition

Revenue is recognized, when the company satisfies a performance obligation by transferring a promised good or service to its customers. The company considers the terms of the contract and its customary business practices to determine the transaction price. Performance obligations are satisfied at the point of time when the customer obtains controls of the asset.

Revenue is measured based on transaction price, which is the fair value of the consideration received or receivable, stated net of discounts, returns and value added tax. Transaction price is recognised based on the price specified in the contract, net of the estimated sales incentives/ discounts. Accumulated experience is used to estimate and provide for the discounts/ right of return, using the expected value method.

### 1.14 Borrowing Costs

Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds. Also, the EIR amortisation is included in finance costs.

### 1.15 Tax Expenses

#### Income Tax

Current income tax is recognised based on the estimated tax liability computed after taking credit for allowances and exemptions in accordance with the Income Tax Act, 1961. Current income tax assets and

liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

#### Deferred Tax

Deferred tax is determined by applying the Balance Sheet approach. Deferred tax assets and liabilities are recognised for all deductible temporary differences between the financial statements' carrying amount of existing assets and liabilities and their respective tax base. Deferred tax assets and liabilities are measured using the enacted tax rates or tax rates that are substantively enacted at the Balance Sheet date. The effect on deferred tax assets and liabilities of a change in tax rates is recognised in the period that includes the enactment date. Deferred tax assets are only recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised. Such assets are reviewed at each Balance Sheet date to reassess realisation.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

### 1.16 Earnings Per Share

The Company presents basic and diluted earnings per share ("EPS") data for its ordinary shares. Basic earnings per share are computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period. Diluted earnings per share is computed by dividing the profit after tax by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

### 1.17 Recent Accounting Pronouncements.

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from April 1, 2020.

### 1.18 Impact of COVID-19 Key accounting judgements, estimates and assumptions.

The threats posed by the coronavirus outbreak are multi-fold. In many countries, businesses have been forced to cease or limit their operations for long or indefinite periods of time. Even in India the outbreak has

been declared epidemic and on March 24, 2020, the Government of India ordered a nationwide lockdown, limiting movement of the population of India as a preventive measure against the COVID-19 pandemic. As a result, most businesses throughout the world are dealing with lost revenue and disrupted supply chains. The disruption to global supply chains due to factory shutdowns has already exposed the vulnerabilities of many organizations.

The Company considered the uncertainty relating to the COVID-19 pandemic in assessing the recoverability of receivables, goodwill, intangible assets, investments and other assets. For this purpose, the Company considered internal and external sources of information up to the date of approval of these financial statements. The Company has also used the principles of prudence in applying judgments, estimates and assumptions including sensitivity analysis.

As the outbreak continues to evolve, the Company will continue to closely monitor any material changes to future economic conditions.

The preparation of the Financial Statements required the Management to exercise judgements and to make estimates and assumptions. The Management has considered the possible effects, if any, that may result from the pandemic relating to COVID-19 on the carrying amounts of its assets. In developing the assumptions and estimates relating to the uncertainties as at the Balance Sheet date in relation to the recoverable amounts of these assets, the Management has considered the global economic conditions prevailing as at the date of approval of these financial statements and has used internal and external sources of information to the extent determined by it. The actual outcome of these assumptions and estimates may vary in future due to the impact of the pandemic.
